

December 2022

Everyone,

As we all look forward to the holiday season, I wanted to share with you the update on the 2023 Zurich ESCTAIC Congress.

As you know, we are partnering with EAAA for this, and the final date is April 27-29, 2023. There are many interesting sessions planned and very interactive workshops, so I hope everyone will attend.

A more detailed information will follow, with a link for registration and we are working on providing continuing medical education credits for the sessions, so please follow our website as more information comes along.

We will post the meeting program on the website as well soon.

As a last reminder, please do not forget to help with membership dues. We did not emphasize those during COVID lockdowns, but we are now ramping up, organizing the Congress and starting to organize more educational activities, thus we will need the financial support to accomplish that.

I end with looking forward to 2023 and the Congress where I hope to see you, and I wish everyone that celebrates this season, Merry Christmas, Happy Hanukkah and a happy and prosperous 2023!

Deea
